2013 Licensing and Credential Guidelines

DRIVER LICENSING

INDYCAR issues USF2000 licenses to qualified drivers age 15 and older. In some cases, 14 year old drivers may be granted specific approval.

For drivers 18 years of age or older, INDYCAR is processing licenses via their website, at: <http://hardcards.indycar.com>. If a driver has previously held an INDYCAR license, they may login with their username and password to begin the process of applying for the renewal of their license. For any drivers who have not previously held an INDYCAR license, there is an option for new members.

All drivers are required to obtain clearance from INDYCAR Medical Services before participating in any on-track activity. Contact Linda at 317-492-8785 or lstaletovich@brickyard.com

Each driver license includes an FIA license. If a driver's home country is not the United States, the driver must request an International Letter of Authorization from their home country's ASN and submit to INDYCAR.

One additional annual credential is included with the driver license fee. Once a driver's application is submitted and payment is received, the driver will be issued a code which can be redeemed by a crew or family member for an annual credential at <http://hardcards.indycar.com>.

MINOR DRIVERS

For drivers under 18 years of age, minor driver license applications are available for download from the <http://hardcards.indycar.com> site.

Please be sure to print the six-page application onto legal size (8.5" x14") paper. All originals (hard copies) must be sent in to INDYCAR at the address indicated on the application form.

Payment of \$500 must be made at the time license applications are submitted.

ANNUAL EVENT CREDENTIALS (“HARD CARDS”)

For individual crew members to obtain annual credentials, their team must first register as an Entrant via the website (<http://hardcards.indycar.com>). If the team previously held an Entrant license, the same username and password can be used to login and renew their Entrant license. If the team has not previously held an Entrant license, there is an option for new members.

Once the application and payment (\$700) is received, the primary Entrant contact will receive an email with six codes. These codes may be distributed to team members and redeemed for an annual credential via <http://hardcards.indycar.com>.

Please note that any team members who previously held an annual credential may not renew their membership until the team’s Entrant license has been processed by INDYCAR and new codes have been issued. Each team member, regardless of previously held membership, will need a new code for 2013 in order to complete the credential application.

The main team contact person may login at any time throughout the season to manage their annual credential list and may purchase additional annual credentials through the site as well.

If a team member leaves the team, their annual credential can be turned in to INDYCAR and that member’s code is then freed up to be used by a new team member.

INDYCAR does not issue annual credentials to anyone under 18 years of age.

COUPONS AND SINGLE EVENT CREDENTIALS

OVERVIEW

USF2000 utilizes a coupon redemption system for single event credentials. USF2000 prints and distributes coupons to its participants, and participants distribute these coupons to their guests. The guests arrive at the USF2000 credential office at each track during the scheduled registration hours, and receive pit/garage credentials in exchange for the coupons. All guests must sign a liability waiver and present photo identification at registration.

DISTRIBUTION

USF2000 will distribute coupons to participants approximately 14 days prior to an event. Each Entrant/Driver combination will receive four coupons per event. Additional coupons are usually available if needed, and may be obtained via request to the series office. USF2000 does not guarantee all quantities requested will be filled at all events.

PHOTOGRAPH IDENTIFICATION

Individuals redeeming coupons must provide a government-issued identification that includes name, date of birth and photograph. Examples include: Drivers License, Passport, or Military ID (Student ID’s will not be accepted). USF2000 is unable to issue a credential to any individual without this identification.

AGE LIMIT

USF2000 is only able to issue credentials to those individuals who are 18 years of age or older.

MINOR CREDENTIALS

While USF2000 is unable to issue credentials to minors, participants with minor guests should contact event promoters to confirm the specific minor policy (some may provide limited access such as infield, hospitality, etc). In order to avoid any uncomfortable situation at the USF2000 Trackside Credentials Office, USF2000 strongly encourages participants to inform their guests of this policy and not distribute coupons to minors.

CREDENTIAL OFFICE HOURS

Prior to an event, individuals are encouraged to review the posted credential office hours on the series website. In addition, the hours will be posted at the USF2000 trackside credentials office during the event and on the coupons themselves.

PARKING PASSES

Parking passes will be granted per team and per driver at each event, based on quantities allotted to the series by the event promoter.

SPECIALIZED PARKING

If an individual has a specialized parking request (i.e. motor home, handicap, etc.), the individual must contact the event promoter in advance of the event.

MEDIA/PHOTO CREDENTIALS

Requests for media or photographer credentials must go through each track promoter directly.
