## **ANDRETTI AUTOSPORT USF2000 NATIONAL CHAMPIONSHIP NOTES AND QUOTES, POST-PRACTICE NEW JERSEY MOTORSPORTS PARK**

### **SAGE KARAM, #8 TEAM COMFORT REVOLUTION CAR**

- Finished P1 in both practice sessions with a quickest time of 101.076 mph

"Today was pretty good. We topped both practice sessions, so it's a good place to be. The team has been working really hard. I hope we can carry that momentum to tomorrow. I have my whole family, friends and sponsors coming to the track this weekend, so I hope to do well for them. Hopefully we can get a couple of wins out of this weekend in the Comfort Revolution car."

### **ZACH VEACH, #7 TEAM ADS CAR**

- Finished P3 in the first session and P6 in the second session, with a top speed of 100.429 mph

"The #7 Team ADS car was among the top five throughout all sessions this week. This morning, we were running really close near the top. We were battling a loose car so we had some adjustments to make. We went into the second practice session and went a little too far and had some understeer. It's just really close here. We just have a little bit of work to do before qualifying tomorrow morning. I can't thank the crew and my engineers enough; they've all been working really hard. We're looking forward to seeing what we can do tomorrow."
